BVU-900 SERIES

The BVU-900 Series video tape recorders have been reduced in price to give Sony's highest performance U-matic® SP editing VTRs a new level of affordability. Along with the new prices, new package configurations have been added to give you the benefit of such outstanding features as a built-in time base corrector, digital noise reducer, time code, and full frame or field freeze.

The new package configurations are designated with the suffix "DNR." These new "DNR" packages, along with current stand-alone VTRs and accessories, will be offered at outstanding savings from previous prices.*
